Given Microsoft Corporations "History" of "failing to comply" and the mindset of the current officers of the Corporation I fully believe that "an example" should be set that we are still a nation of law and that the Government is still the "enforcer" of that law! The ENRON failure is a glaring example of what happens when the Government "fails" in its duty to enforce on business entities with equal force what it enforces upon its citizens! "We the people" wait and watch for Justice!
